# DATACONN™

*a reliable range of data cables, from simple USB cables to high speed ones, which delivers uncompromised speed and data transmission quality.*

Be it data or signal transmission, **DATACONN™** cables will ensure a seamless connection between hardware components.

Modern electronic products require data cables with small cross sections, good shielding, as well as high flexibility.

Our **DATACONN™** range is constantly updated to suit all data cabling needs.

**More reasons to choose us:**
- **ISO/UL certified**
- **RoHS compliance**
- **Just-in-time delivery**
- **Low minimum order quantity**
- **Global reach**

**mapconn** connects clients to the total solutions they need. Our expertise includes initial product conceptualization to product development, product testing and final production – offering solutions to meet specific application requirements, thus allowing clients to better manage their logistics, reduce wastage and promote cost savings.
