

POWERCONN™

a complete range of safety approved power plugs and sockets, ranging from two to three pronged power plugs to heavy-duty (high AMP) ones for industrial applications.

Power plugs and sockets differ in their voltage, ampere, shape, size and type of connectors.

The specification requirements are set by national standards and vary across countries.

Our **POWERCONN™** range is able to fulfill them all.

More reasons to choose us:

- **ISO/UL certified**
- **RoHS compliance**
- **Just-in-time delivery**
- **Low minimum order quantity**
- **Global reach**

mapconn connects clients to the total solutions they need. Our expertise includes initial product conceptualization to product development, product testing and final production – offering solutions to meet specific application requirements, thus allowing clients to better manage their logistics, reduce wastage and promote cost savings.
